EXPERIENCE

Elovient Software Solutions

Feb 2026 - Jun 2026

Software Engineer | Remote

- Built a wedding management platform across a React admin app, Node.js backend, and Expo mobile app for admins, organizers, and guests.
- Implemented OTP authentication, RBAC for four user types, guest and event workflows, deep-link invitations, real-time chat, notifications, async jobs, and file uploads.

ViewMetrics

Jun 2025 - Nov 2025

Full Stack Developer | Remote

- Led the migration from GCP to Railway and GitLab to GitHub, rebuilt CI/CD pipelines, and reduced monthly operational costs by 80%.
- Integrated TikTok Ads, Google Search Console, and LinkedIn Ads APIs into the platform.

UNIMAD

Jun 2024 - Apr 2025

Full Stack Developer | Remote

- Built a resume builder with real-time previews and Zod validation, and implemented onboarding flows with React Query.
- Implemented caching that reduced AI requests by 50% and improved response speed by 2x.

INDEPENDENT WORK

FacelessAI

Jul 2025 - Present

Founder & Software Engineer | Independent

- Built an AI video platform with scripting, asset generation, voice synthesis, timeline composition, and rendering.
- Built asynchronous generation and rendering workflows with Cloudflare Workers, Workflows, Queues, R2, PostgreSQL, Remotion, and FFmpeg.
- Implemented persistent job state, retries, credit accounting, and containerized rendering for long-running video jobs.

BetterMD

Feb 2026 - Present

Independent project | In development

- Building a GitHub App to detect documentation drift in pull requests and suggest Markdown patches using Next.js and Trigger.dev.
- Implemented GitHub OAuth and App installation flows, repository sync, PR analysis, and structured review comments.

EARLIER EXPERIENCE
